1. Spokane County KBS Rating Guide examples:

Postpartum:

Spokane focuses on danger signs, MN does not.

Why is BF not in the PP rating guide example? Complications of breastfeeding should be considered as a complication of postpartum in the context of this problem.

Knowledge considerations: Understanding of maternal benefits of breastfeeding for postpartum

Change wording to "postpartum/breastfeeding complications" for status 1 and 2.

Change wording to "Minimal postpartum difficulties"

Mental Health:

Delete "Potential problem is status 5 always" from status 5

Caretaking/Parenting:

Add "safety" to Knowledge considerations

Thank you to Karen Lindberg for willingness to update the KBS rating guide with the changes
